

Action Plan for “Flea Beach” Right Of Way

Phase ONE

- 1) Repair existing driveway
- 2) Repair and improve drainage along the existing driveway
- 3) Tidy up at the end of the driveway for improved safety and access
- 4) Evaluate and submit a planting plan for the road-side section of the ROW
- 5) Create and submit for approval two signs:
 - 1) No Tree or Vegetation removal or cutting
 - 2) “Leave No Trace” use and rules sign at the bottom of the driveway

Phase TWO

- 1) Improve water courses and drainage in other parts of the ROW, especially as they have been altered by extreme foliage removal
- 2) Place approved signs at the site
- 3) Organize volunteer planting after approval of planting plan
- 4) Tidy entire ROW - prune as necessary, trim as necessary
- 5) Ensure rules for use are being followed
